## Hedrick's Photo Album:

- A. Pot-bellied Pig (Indochina) wags its tail like a dot when it is happy. Makes a good pet.
  - B. Camel (North Africa & Middle East) one hump indicates a dromedary; two a bactrian.
  - C. Kangaroo (Australia & New Guinea) babies weigh one gram when born.
  - D. Ostrich (South Africa) will swallow just about anything they can fit in their mouth.
  - E. Giraffe (Serengatti) babies are 6 feet high when born.
  - F. Macaw (South America) one of the smartest animals, and they talk.
  - G. Deer (Muntjacs from Asia and Fallow deer from Eurasia) all males have antlers.
  - H. Tortoise (global) can live 200 years.
  - I. Pony (global) smaller than horses but faster than mules or donkeys, sometimes used in mines.
  - J. Goat (Pygmy Goats from Africa) very intelligent and affectionate – make good pets. They nibble on clothes.
  - K. Zebra (Africa) can run very fast (40 mph) to get away from lions, cheetahs, and leopards.
  - L. Llama (South America) special blood helps them breathe in thin mountain air.
